## ***Introduction***

The following information describes in detail the paper remittance advice that MassHealth issues to providers in response to claims submitted on the paper claim form no. 7, or its electronic equivalent. For instructions on submitting paper claims on claim form no. 7, see the MassHealth Billing Guide for Paper Claim Form No. 7. For information about billing electronically, see the applicable MassHealth companion guides. For general administrative and billing instructions, see Subchapter 5 of your MassHealth provider manual.

## ***General Explanation of Remittance Advice***

For each pay cycle (“run”), MassHealth issues a remittance advice to affected providers to explain the status of claims that were processed. It lists paid, denied, suspended, adjusted, voided, and pended claims that were processed on that run. Claims within each status are sorted first by earliest date of service, second by patient account number, and third by the member’s last name. If the provider has not elected to have payments transferred directly into a bank account through electronic funds transfer (EFT), a check for the total amount of paid claims represented on the remittance advice will be mailed separately.

MassHealth uses the first page of the remittance advice to send important messages to providers. These messages may contain billing and payment information, as well as other topics. These updates should be shared with all appropriate staff. Remittance advice messages may apply to all providers or to certain types of providers (for example, physicians or hospitals). These messages are also posted on the MassHealth Web site at [www.mass.gov/masshealth](http://www.mass.gov/masshealth). Click on MassHealth Regulations and Other Publications, then on Provider Library, then on Remittance Advice Message Text.

These instructions contain the following information about the remittance advice:

- a sample cover page of the remittance advice;
- an item-by-item key to identify the location and type of information found on the remittance advice;
- an explanation of the information on the remittance advice relating to the status of each claim, including examples of paid, denied, suspended, and pended claims;
- an explanation of the information on the remittance advice relating to the different kinds of claims-processing requests, including requests for payment, adjustments, voids, and returned monies; and
- examples of remittance advices.

The error codes that may appear on the paper remittance advice and their definitions are listed and explained in Subchapter 5 of your MassHealth provider manual.

<b>Field No.</b>	<b>Field Data</b>	<b>Description</b>
1	Invoice Type	This is the MassHealth claim form number used for your claim submissions. Electronic submissions are translated to the corresponding MassHealth claim form type.
2	Run	This is the number identifying the specific processing cycle.
3	MM/DD/YY	This is the date the remittance advice was printed.
4	Provider Number	This is the pay to provider number.
5	Report Page	This is the page number of the total computer printout.
6	Provider Page	This is the sequential page number of the remittance advice.
7	Provider name	This is the legal entity's name and the check-mailing address.

**Claim Lines**

8	Patient Account	The patient account number entered on the claim listed to the left of the member's last name.
9	Recipient Name	Members' names are listed by month of service within each claim status and alphabetically by last name.  If the member identification number is not on the member eligibility file, or if the number is incorrect, "NM NOT AVAIL" appears in this item.
10	Recipient ID	This is the member identification number that was entered on the claim.
11	TCN	This is a unique 10-character number assigned to each claim line. The transaction control number (TCN) is assigned when a claim is received. It is used to identify a claim for adjustments, resubmittals, and records research. Below is an explanation of each digit in two types of TCNs. Electronic claims are identified by an alpha character in the fifth position of the TCN.

**Examples:** 612302743A and 6123A2743A

## Examples of Claim Lines on the Remittance Advice

### Example of a Paid Claim

In this example, services were furnished to eligible MassHealth member John Doe on July 1, 2005. The total charges are in accordance with the MassHealth allowable for this service code.

### Example of a Denied Claim

In this example, services were furnished to eligible MassHealth member John Doe on July 1, 2005. Two claims for the same service were mistakenly submitted. The second (current) submission was denied with error code 103. (See Part 6 of Subchapter 5 of your MassHealth provider manual for a complete description of the error code.) The previously paid claim appears on the following line as a "Conflicting Claim" with the run number of the remittance advice on which it appeared.

### Example of a Suspended Claim

In this example, care was furnished to MassHealth member John Doe on July 1, 2005. When the provider billed MassHealth for the service, the claim was suspended with error code 246, which means that the member identification number entered on the claim belongs to a member who was ineligible on the date of service entered on the claim. (See Part 6 of Subchapter 5 of your MassHealth provider manual for a complete description of the error code.) According to the MassHealth member eligibility file, John Doe was not eligible for MassHealth on the date of service. The claim will be recycled for up to 30 days to allow for possible updates to the eligibility file.

## Examples of Claim Lines on the Remittance Advice (cont.)

### Example of a Post-Payment Review (PPR) Pended Claim

In this example, it was determined that \$276.00 was payable for this claim; however, payment is being withheld as a result of a Notice of Withhold. See 130 CMR 450.249. A withhold inhibits the release of current payments to a provider. This claim may be released for payment when a resolution is reached between the provider and MassHealth, or the amount owed is finally adjudicated, and all due amounts have been recovered.

### Examples of Adjustments

An adjustment is indicated on a remittance advice by a debit-credit transaction. The debit (DBADJ) line reflects the original claim, and the corresponding status field contains the amount originally paid. The credit (CRADJ) line reflects the adjustment to the original claim, and the corresponding status field contains the amount that should have been paid. The amount in the "Amount Paid by Medicaid" column represents the difference between these two amounts. This amount will be zero if the adjustment did not change the original payment. If the amount is negative, it will be deducted from the payment. If the amount is positive, it will result in an additional payment for the claim.

The following examples illustrate situations when adjustments result in (1) a negative amount, (2) a positive amount, and (3) no changes to the payment (zero-payment adjustment).

#### Example of a Negative Amount Adjustment

In this example, a change in the number of units from four to two resulted in a reduction of the amount paid by MassHealth. This change established an overpayment of \$52.00 (\$104.00 minus \$52.00) for the original claim that had been paid to the provider. The provider should have been paid \$52.00. The \$52.00 overpayment will be deducted from the total amount of paid claims on the remittance advice.

**Examples of Claim Lines on the Remittance advice (cont.)****Example of a Positive Amount Adjustment**

In this example, a change in the units from two to four resulted in an increase in the number of reimbursable units. This change established an underpayment of \$52.00 (\$104.00 minus \$52.00) for the provider. As a result, MassHealth pays an additional \$52.00 to the provider.

**Example of a Void**

A void transaction is reported on a remittance advice to correct and report any one of the following situations:

- duplicate claim erroneously paid;
- payment to wrong provider;
- payment for wrong member;
- payment in excess of the maximum allowable MassHealth amount;
- payment for overstated services; or
- payment for services for which payment has been received from one or more third-party payers.

A void transaction always results in a negative amount to reverse the original claim. These voids do not represent the return of owed monies. Therefore, they are treated as an overpayment and are deducted from current payments.

## Examples of Claim Lines on the Remittance Advice (cont.)

In this example, a payment of \$52.00 was issued to the wrong provider for a claim for John Doe. This claim is voided and this provider's current payments are deducted until the total amount of \$52.00 is recovered.

## Recoupment/Recovery Information

When a claim adjustment or a void results in an overpayment, a negative amount appears in the "Amount Paid by Medicaid" column on the remittance advice. These negative amounts are subtracted from the provider's current payment. If a negative balance is still outstanding, it is carried forward as an outstanding recoupment account. This activity is reported on the remittance advice and will appear under "Remarks."

Monies owed by a provider will be deducted by MassHealth from future claim payments.

MassHealth may be required to make payment to federal or state authorities when served with a levy upon payments due to a MassHealth provider. In these instances, a recoupment account for the amount of the levy is established for one processing cycle. Levy amounts are recouped from current payments. This activity is reported on the remittance advice. Payments are sent to the Payments are sent to the proper federal or state authority.

## Example of a Recoupment/Recovery

In this example, a recoupment in the amount of \$100.00 was reported. On this remittance advice, \$50.00 was applied, leaving a balance due of \$50.00. The balance will be applied against the next payment made to the provider.

## Additional Information

For more information about submitting claims, consult the administrative and billing instructions in Subchapter 5 of your MassHealth provider manual. For MassHealth contact information, consult Appendix A of your MassHealth provider manual. Subchapter 5 and Appendix A are both available on the Web. Go to [www.mass.gov/masshealth](http://www.mass.gov/masshealth) and click on MassHealth Regulations and Other Publications, then on Provider Library, then on MassHealth Manuals, to select your provider manual.
